Land Use (Agriculture, Residential, Recreation), Water Resources (Floodplains, River Crossings), Historic and Cultural Sites, Radio or Television Interference, Noise, Health and Safety, Project Purpose and Need, Biological Resources, Visual / Aesthetic Resources, Proximity to Residences

Property Uses:

Residential

Comment:

I am a family decendant to property that is on the proposed power lines site. This a detriment to my children and other family members. The health and safety is the biggest concern as is the realization that these poles will be on my future property. It is obnoxious that you are using OLD maps to decide where to put these poles. Before any construction is approved, updated information needs to be used. The thought that you are starting out with incorrect information scares me that the whole project is a sham and a cover-up or a money scheme. Please check your facts and also please listen to all of the people that live on these properties year-round, full-time.

Thank you

I-230-001: Electrical Characteristics (In Review)

Your email/letter/comment form has been received and your comment noted. Electrical characteristics of the proposed project and mitigation measures will be addressed in the Environmental Impact Statement. The Environmental Impact Statement is anticipated to be completed in late 2010 and will be available at <http://www.usda.gov/rus/water/ees/ea.htm>.

I-230-002: Correction to Data (In Review)

Your email/letter/comment form has been received and your comment noted. The information you provided will be verified and project materials will be updated accordingly. The Environmental Impact Statement is anticipated to be completed in late 2010 and will be available at <http://www.usda.gov/rus/water/ees/ea.htm>.
